SKILLS

I'm a junior developer with a strong technical background, specializing in .NET (RESTful APIs, WebForms, .NET Core). I've built web apps using WebForms, Astro, and React—styled with Bootstrap and Tailwind CSS—and mobile apps with Flutter. I'm experienced in SQL Server, PostgreSQL, and Supabase, and I'm eager to apply my .NET expertise and best practices to deliver clean, maintainable solutions.

EXPERIENCE

Infoamerica Technical Solutions — *Junior Web Developer*

August 2021 – September 2022

- Created a web platform for K-pop disc trading, including features for browsing, purchasing, and contacting sellers.
- Utilized HTML, CSS, and JavaScript to build a functional e-commerce site.

.Net FullStack Junior Developer – *Junior computer engineer*

DNAMIC | Databricks Data Solutions / april 2024 – Present

- Supporting a .NET web application through the implementation of new features and efficient bug fixing, following best practices in software development while understanding the business domain and applying best practices aligned with business needs.
- Utilized HTML, CSS, JavaScript, Visual Basic and SQL Server using store procedures and views to develop the new features and resolve the bugs.

Mobile App Developer – *Junior Computer engineer*

Personal Project / Jan 2025 – Present

- Developing a mobile task management application to help users organize their work time and manage group tasks, leveraging artificial intelligence.
- Utilized the Flutter Framework, Dart, Provider state management and Supabase PostgreSQL to develop the mobile app.

Web Sites — *Web Developer*

April 2023 - Present

- Developed an interactive biology study blog on the sulfur cycle using pure HTML, CSS, and JavaScript.

- Built responsive websites for AirClip and PaizTech with Astro and React, styled using Tailwind CSS.

EDUCATION

High School Diploma — *Bachelor*

Liceo Experimental Bilingüe de Belén, 2023

Universidad Estatal a Distancia (UNED) — *Computer Programming*

Technical Degree in Computing and IT

Introduction to IoT(Cisco) – *Technical Certification*

Technical certification in introduction to Internet of Things (IoT)

Introduction to CyberSecurity(Cisco) – *Technical Certification*

Technical certification in introduction to CyberSecurity

Ongoing Studies (UNED) — *Bachelor*

Computing Engineering

Languages

English Proficiency: B2 (Written, Spoken, Listening)

Spanish Native

Skills

Team collaboration and effective communication
